DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group 1, claims 1-4, drawn to a screen assembly with a removable or insertable feature.

Group 2, claims 1, 5-9 and 13, drawn to a screen assembly with a deflectable support structure.

Group 3, claims 1, 10-12, drawn to a screen assembly with opposing sides.

Group 4, claims 1, 14-19, drawn to a screen assembly with a perforate panel.

Group 5, claims 1, 20-22 and, drawn to a screen assembly with a panel with folded portions.

Group 6, claims 1, 23-28, drawn to a screen assembly with adhered screening material

Group 7, claims 1, 29-30, drawn to a screen assembly a support structure with a plurality of support ribs.

Group 8, claims 1, 31-33, drawn to a screen assembly a flexible panel and tensioned screening material.

Group 9, claims 34-37, drawn to a shale shaker.

Group 10, claim 38, drawn to a method for fitting a screen assembly.

The inventions listed as Groups 1-10 do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features. Here, many of the groups share the feature of a panel with a multiplicity of apertures and support rib structure, but this feature is well known in the art and thus cannot be regarded as "special". (See e.g., WO 00 00264 as cited in the International Search Report). Therefore, as the claim groupings lack a special technical feature, the claim groupings lack unity of invention.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
